С появата на стандартите 4K сега имаме from inspiring visual effects that will start your day on a positive note. The following following: some of the coolest 4K desktop backgrounds you can add to your Windows 10 desktop. While 4K refers to 3840 x 2160, these wallpapers will fit any screen size easily. All selected links are either dynamic, interactive, or unique. They have been tested for viruses and other malware. 1. Beetle is a beetle or some other kind of orchard? Never mind, because either way this picture is a completely mesmerizing and ideal way to use every pixel of this new 4K display you have. This image is not just for the high resolution – these are the beautiful colors that will be especially useful for lucky owners of IPS panels. Here you will find this and other great works. 2. Miami Windows Maybe not as straight eye-cracking as some of the other environments here, but why should everything be so bright that it leaves permanent marks on its retinas? This super smooth version of the default windows 10 background has a beautiful gradient from purple to pink, giving it this kind of sun-kissed Miami Weiss feel. You can find it on UHD wallpapers. 3. Apple MacBook Pro 4K can put you on a Mac background on Windows 10? Wallpaper Flare has the right collection of such screens for absolutely free. The resulting display is, frankly, beautiful. prepare to be blown by pixelated graphics and rich colors. In addition to the 4K display, these screens are available for any standard laptop resolution, such as a MacBook desktop, such as a dual, triple, or quadrilateral monitor or Android or Surface tablet. 4. Astronaut Digital Wallpaper What could be more surreal than watching an astronaut bypass earth? Wallpaper Flare has a free, fantastic collection of space art in 4K to give you an interstellar-like background. Related HD wallpapers range from tunnels to Martian colonies and the moon's surface. 5. Aquarium 4K Live Wallpaper If you want a wonderful aquarium on screen with different types of fish colliding in each other, Microsoft Store has only one for you. This relaxing 34 MB background is not free, but you can install it on up to ten Windows 10 devices, including PC, HoloLens, Surface Hub and mobile devices. You can also download Sim Aquarium 3 if you want a variety of fish displays with soothing sounds for free. 6. Waterfalls lake One of the most soothing PC backgrounds is on a waterfall, pouring into the feeding of a natural pool. Wallpaper Up has a rich collection of such visual, ideal for nature lovers. Resolutions are actually much higher than 4K (up to 8K previews are available), but the background easily scales to any screen size. All images are absolutely free. 7. Desktop Live Wallpapers Are you looking for a large selection of free animated wallpapers on your screen from an authorized site? Desktop live wallpapers from the Microsoft Store offers a host of breathtaking scenes that will leave you mesmerized. Interactive display helps you choose custom 4K wallpaper every occasion, to and load your personal video files. 8. League of Legends Fans of this multiplayer online battle arena will not be treated to the most brilliant 4K multiple screens and vertical displays from the official website of the game. Consisting of more than 600 MB, League displays require full installation, robust RAM (8 GB and more,) and quite a few adjustments to settings. But the wait is worth it because there is a huge collection of display kits and animated arts, as well as online updates with each game. It's an amazing collection that covers everything from animated art to space displays and 4K screen savers. League of Legends fantasy comes to life to fill you with amazement due to sheer variety of visual effects. 9. Rainmeter Rainmeter is more than just a wallpaper display. This is the best desktop with a live feature that gives you an interactive overview of your system health and resources from the desktop screen. Whether it's cpu and RAM usage or working with the calendar and individual folders, you can feel the wallpaper very personally. After downloading, you can import many custom screen skins that can be scaled to 4K resolution. 10. Mountains and landscapes in 4K For those looking for stunning 4K visualizations of mountains and landscapes, you will be robbed of choice in this regard. All photos are taken from the actual mountain landscape and cover everything from the snow-capped peaks to the reflections of the mountains in lakes. This site really offers the largest 4K collection of scenic mountains to survive your desktop. These rich visuals will definitely reassure those of us who haven't been able to go outdoors much since the start of COVID-19 this year. 11. Storyblocks Animated Wallpapers You may need a search engine for 4K wallpapers on various abstract themes. Storyblocks allows you to choose such new ideas from an inspiring large collection, whether you want an abstract wavy transition on your desktop or DNA molecules, with much more choices. 12. DeviantArt For one of the best collections of inspiring works of art for windows desktops, DeviantArt should not be overlooked. Using a 4K search label, you get access to a set of professional key concepts created by actual performers. All these wallpapers come at a price, but are unique, original and unplicated elsewhere online. This can be your own signature on the desktop. Once you've downloaded the wallpapers in 4K resolution, you may want to learn how to use animated and live wallpapers to suit any occasion. While some of the 4K video wallpapers we've played can be used as screen savers, they also consider this great collection of Windows 10 screen savers. Related: Is this article useful? Useful?
